Our pricing for portraits couldn't be simpler or more straightforward: for each level of service you get unlimited shots, unlimited people, and unlimited wardrobe changes. The only limit is the amount of time that you book. All studio sessions include at least the amount of time listed – we almost always run over without any extra charge.

All location shoots include up to 20 mins. travel time to your location. Additional travel time is charged at a simple \$25/hr. of total trip time. So, even a shoot in Chicago is just \$100 extra.

I do most portrait sessions on my own, but many sessions will include an assistant at no extra charge. Typically for complex, multi-hour studio & location shoots we require that an assistant be on hand at a nominal, flat fee that will be quoted in advance. We never have hidden charges or expenses!

Our professional lab quality print services are performed by our labs in California. All your proofs made available online are also available as prints, cards, mementos, etc. that can be ordered directly from these proof pages, and are delivered right to your door.

– Prices effective through June 30, 2011 –
